## DUMPERS

The Thwaites name is synonymous with the best-quality dumpers on the market. Advanced design and investment in tooling provide today's customers with the very best products at the cutting edge of technology. This means more than just the strength and reliability you know you can expect from Thwaites; it means an increased focus on customer satisfaction, safety and ergonomics across the range.

Thwaites specialise in dumpers, so you can be confident you are dealing with the experts. At every stage of the manufacturing process each component has passed the most stringent tests before the assembled dumper goes through its final pre-despatch inspection.

Consistently at the forefront of dumper design, Thwaites have answered customers' needs for more than six decades. At every stage of product advancement within the industry, Thwaites have been the innovators.

## COMPACTORS

Bomag started producing compaction equipment in 1957 in Boppard, Germany. They invented the concept of the vibratory roller and have remained at the forefront of compaction innovation and quality ever since.

Today Bomag offer a huge range of equipment of the highest standard and their commitment to quality of product and back up are undiminished.

Technical advice on compaction is also available as well as a variety of compaction aids such as the economiser. As with all Bomag equipment these are easy to use and efficient. Bomag's quality is reflected in their unparalleled re-sale values.

## USED EQUIPMENT

At CBL we are always happy to purchase virtually any trade-in machine. We have even been known to take a 50ft Motor Yacht! As well as part exchange machines we would also be pleased to make an offer for any surplus plant and machinery you may wish to dispose of and regularly provide this service.

Our Used Equipment list is updated constantly and a weekly update is both emailed to anyone who wishes to receive it and posted on our website.

We can offer a full spectrum of services on used equipment from a simple check over and service to a full refurbishment.

Please contact our Used Equipment Department for details about equipment you are looking for or interested in from our list

## CBL SERVICE

CBL has a team of around 50 highly trained and experienced service engineers at 7 depots located across the south of the UK, with the ability to service/maintain all types of plant and equipment across the sales range.

Whether you require on-site servicing, repair or full workshop overhaul/rebuild, CBL can meet your needs. Each of the 7 depots has manufacturer trained engineers on-site and fully equipped workshops with OEM diagnostic hardware and software.

### CBL Tracking Option

With the help of the “CBL Track” telematics systems, servicing can be carried out for a fleet of machines or just one, with automatic checks based on hours run or date for ease and simplicity.

### Fixed Price Servicing

Ask us for details and a quotation.

## CBL PARTS

Our knowledgeable parts personnel are on hand to deal with your enquiries efficiently and effectively, ensuring the right parts arrive on time. The experienced team will offer advice on your exact requirements and can provide guidance where needed.

As recognised dealers for the industry-leading brands of compact equipment, CBL has the ability to supply competitive prices across a broad range.

CBL also supplies XT Rubber Tracks, which come with a 24 month warranty.

For more information please contact our parts sales team on 0345 241 7922 and [parts@cbl.co.uk](mailto:parts@cbl.co.uk).

## CBL FINANCE

Offering a full range of finance options with straight forward plans from partners such as De Lage Landen (DLL), you can be sure to find flexible finance solutions at competitive rates.

A representative from DLL is the best point of contact to discuss finance plans with, to meet your exact requirements.
